### The business case

Our partnership model is simple: Help you improve the quality of your patients lives by providing state-of-the-art intimate wellness solutions that expand and complement your women's health product offering.

vFit PLUS is an excellent patient entry point for the intimate wellness category, in addition to a perfect home-use maintenance program for other in-office options. Help your patients maximize their benefits, while increasing patient satisfaction and loyalty.

### Why carry vFit PLUS

- vFit PLUS is a powerful tool that can help you in growing your business and help your patients achieve optimal health.
- A substantial revenue opportunity with no up-front capital investment.
- An affordable option for those patients not ready for laser treatments or surgery.
- Helps maintain benefits between professional treatments.
- Pairs well with other therapies offered and can be implemented into bundled pricing.

### Joylux wants you to succeed

- Marketing support to reinforce sales efforts.
- PR campaigns to drive the conversation and build brand awareness.
- Staff training to develop sales strategies to help you sell.

vFit PLUS is a powerful tool that can help you in growing your business and help your patients achieve optimal wellness.
